Summary

I am a BS Computer Science student with interests in Cyber Security, Artificial Intelligence, and Software Development. I have a strong research background, with prior hospital internships and a deep interest in oncology and healthcare-related research. Alongside my studies, I work as an A-Level Physics teacher, which has strengthened my communication and analytical skills. I am passionate about combining science, research, and technology to solve real-world problems.

Experience

Teacher and Examiner

Beacon house

08/2020 – 08/2024 | Karachi, Pakistan

- With over five years of teaching experience in O Level and A Level subjects, specifically physics, chemistry, and mathematics, I started my career as a teaching assistant and was later promoted to a faculty teacher in A Levels.

Medical researcher and intern

Patel Hospital

01/2022 – 01/2024 | Karachi, Pakistan

- I served as an intern for two years at various hospitals and institutes, where I participated in a range of certifications and conducted medical research focused on oncology, specifically carcinoma.
